

The Song is Ended

The song is ended, but the melody lingers on.
You and the song have gone, but the melody lingers on.
The moon descended, but was found at the break of dawn.
You and the song have gone, but the melody lingers on.
Beneath the light, the light of the moon.
We sang our love song that ended too soon.
The song is ended, but the melody lingers on.
You and the song have gone, but the melody lingers on.
Ooooooooo
The song is ended, the melody, the melody lingers on.
The melody, the melody lingers on.
